Tea

English Breakfast

Hot £4.30

English Breakfast blend was designed for those tea drinkers needing a bit more punch in the morning. Taking its lead from the distinctive rich body of Kenyan black tea, and combining it with loyal breakfast favourites Assam tea and Ceylon tea, this whole leaf black tea brews a robust, golden cup - full in body and wonderful with a dash of milk.

Earl Grey

Hot £4.30

Earl Grey tea strike the perfect balance between body and aroma, making it a deliciously fragrant cup for any time of day. Delicious with or without milk, or even with a slice of lemon.

Sencha Green

Hot £4.70

Unlike most Senchas which are grown in full sun, this particular example is shaded for 18 days before plucking, making it more akin to a Gyokuro - a style of steamed green tea widely considered to be Japan's finest. This unique shading process brings out the tea's rich, characteristic umami flavour, as well as more sweetness. The dark, silky leaves produce a vibrant green cup with a fresh, spring-like aroma and smooth, delicately sweet finish. Reinfuse up to 3 times.

Lemongrass [caffeine free]

Hot £4.30

Loose leaf Lemongrass tea zings with a sweet, lemony freshness that lingers long after drinking. This herbal tea brews a bright yellow, lemony cup - perfect as a refreshing afternoon pick-me-up.

Chamomile [caffeine free]

Hot £4.30

Caffeine-free, award-winning Chamomile tea produce a fresh, sweet cup with hints of apple and honey. Much loved for its calming and sleep-promoting effects, the whole, yellow-gold blossoms are the perfect just-before-bed tea.

Hibiscus [caffeine free]

Hot £4.30

Loose leaf Hibiscus tea produces a refreshingly tart, bright, ruby-red infusion. Caffeine-free and bursting with blackcurrant, this herbal tea is also full of vitamin C. We love the zing, but stir in a dash of honey for added sweetness.

Peppermint [caffeine free]

Hot £4.30

Loose leaf Peppermint tea produces a deliciously fresh, peppery cup with a cool, minty finish. Naturally caffeine-free and well-known for aiding digestion, this is the perfect cup for after a meal.
